

## INDUSTRIAL INDOOR INTERCOM HANDSET STATIONS

**Model 710-104** (Single party)  
(*Model 7105-104 Multi party*)  
Desk Edge station.

**Model 715-104** (Single party)  
(*Model 7155-104 Multi party*)  
Flush mounted station

**Remote amplifier (723-001)  
with enclosure (7245-004)**

**Model 726-202**  
(*Model 7265-202 Multi party*)  
Desk top station

### FEATURES AND BENIFITS

- Noise-cancelling microphone allows communication even in high noise areas.
- Nonmovable electronic hookswitch for added durability.
- Hazardous area approvals.
- Ample space in enclosure and double row terminal block for easy installation.
- Maximum distance 1.6Km between two stations.
- Modular design reduces spare part
- Rugged steel dust-tight housing (indoor) or glass-reinforced polyester resists corrosive agents.
- Compact size, ideal for crane cabins and all small areas.

Above models are desk edge, flush mount and desktop intercom stations provide quality all-page and common-talking communications. The design of these stations permits installation in all type of indoor applications.

Available in single-or multi-party line models, each unit includes a remote amplifier 12-Watt speaker amplifier and the handset subset. The stations are housed in dust-tight, 2-mm cold-rolled steel enclosures finished with textured polyurethane paint.

Above stations exists as well in multi-party version providing 5 party lines. See model numbers printed in *italic*

#### Specifications.

Power	: 120VAC 50/60Hz 50VA consumed (4VA idle)		
Audio amplifier	: 12Watt RMS. frequency range 250-4KHz		
Microphone	: Dynamic 10-Ohm noise cancelling		
Controls	: Speaker volume, receiver volume, mic volume, anti-side tone		
Temperature range	: Minus 30C° to +70C°		
Shipping weight	: Amplifier :2,4 Kg	Enclosure: 2,7Kg	Handset subset 3,1Kg
Shipping dimensions (LxWxH)mm	Amplifier : 26x28x23	Enclosure: 26x28x23	Handset subset 31x33x32
Protection	: IP42
